

Annual Survey of Hours and Earnings linked to 2021 Census of England and Wales

**** Dataset In Development ****

User Guide – Version 0.1 (beta)

Abstract

The Wage and Employment Dynamics (WED) team are collaborating with the Office for National Statistics (ONS) to link the Annual Survey of Hours and Earnings (ASHE) to the 2021 Census of England and Wales (CEW21). This will extend the range of information that is available on the personal and household characteristics of ASHE sample members, thereby expanding the research capabilities of the ASHE data. The ASHE-CEW21 dataset is currently in development and is expected to become available in Summer 2026.

This beta version (v0.1) of the *User Guide* provides a preview of the forthcoming dataset. It outlines the protocol being adopted by ONS to link the two datasets and describes the expected features of the linked data. It also discusses connections between the ASHE-CEW21 linkage and an earlier linkage project in which ASHE was linked to the 2011 Census of England and Wales (CEW11). The User Guide will be updated once the ASHE-CEW21 linkage has been completed and quality assured.

1. Introduction

The Annual Survey of Hours and Earnings (ASHE), carried out in April each year, is the most comprehensive source of information on the structure and distribution of earnings in the UK. ASHE is an annual survey based on a 1% sample of employee jobs, drawn from the HM Revenue and Customs (HMRC) Pay As You Earn (PAYE) register. The 1% sample is selected by choosing jobs held by individuals whose National Insurance number (NINO) contains a specific two digits; eligible individuals thus form part of the issued sample in each year they hold an employee job. The survey is conducted by the Office for National Statistics (ONS) and collects information on employees' earnings, paid hours and occupation, along with some employer characteristics. However, the research dataset contains relatively few personal characteristics for the employee (restricted to sex, age and residential location).

The 2021 Census of England and Wales (CEW21) provides information on the characteristics of all the people in England and Wales and the households they occupy. The Census is undertaken every 10 years by the ONS. The CEW21 took place on 21 March 2021.

Linking these datasets extends the range of information on the personal and household characteristics of ASHE sample members, thereby expanding the research potential of the ASHE data. The ASHE-CEW21 dataset is currently in development and is expected to be available via the ONS Secure Research Service (SRS) in Summer 2026.

ASHE has already been linked to the 2011 Census of England and Wales (CEW11) (Forth et al., 2022a). The linkage to CEW21 will provide the first Census information for those ASHE sample members who were not observed in ASHE in 2011 (e.g. new entrants to the labour market). It will also provide updated Census information for many of those ASHE sample members who were linked to CEW11 in the previous project.

In cases where a robust record-level link is made between ASHE and CEW21, it will be possible for ASHE (the “recipient dataset”) to incorporate employee-level data from CEW21 (the “donor dataset”) on a range of personal characteristics, including the employee's educational qualifications, country of birth, ethnicity, religion, and disability status. It will also be possible to incorporate some information about the ASHE sample member's household circumstances. In the initial release of ASHE-CEW21, these Census data items will be available for the matched individual in any year that they appear in ASHE from 1999-2022. Later releases will incorporate more recent years of ASHE data, however the timetable for those releases has not yet been determined.

2. Motivation for linking ASHE to the 2021 Census of England and Wales

ASHE provides rich information on earnings and working hours, collected from payroll records for a large and nationally representative sample of employee jobs. However, one limitation of ASHE is that the dataset contains few personal characteristics – limited to sex (Male/Female), age (in years) and residential location (coded to various standard

geographies). The limited number of personal characteristics arises because the survey is completed by employers, rather than by employees themselves.

The additional information provided by the 2021 Census includes fixed employee characteristics (e.g. ethnicity, nationality, formal education), semi-fixed characteristics (e.g. disability, number and age of children, marital status) and transient characteristics (e.g. household composition).

Figure 1 provides an overview of the information provided in ASHE and CEW21. Adding personal and household characteristics from CEW21 to the ASHE dataset allows for a range of new research opportunities, including:

- Using data on educational attainment to examine the wage returns to human capital
- Identifying wage gaps across a range of characteristics protected under the Equality Act 2010 (e.g. ethnicity, disability, religion, sexual orientation)
- Exploring wage progression among migrants to the UK
- Investigating how household circumstances shape earnings trajectories for different groups.

Figure 1: Summary of topics covered in ASHE and the 2021 Census of England and Wales (CEW21)

ASHE	CEW21	ASHE + CEW21
Personal characteristics: • Age • Sex • Residential location Job characteristics: • Earnings • Paid hours • Pension contributions • Collective bargaining • Occupation Employer characteristics: • Size (employees) • Industry • Legal status • Workplace location	Personal characteristics: • Age • Sex • Residential location • Country of birth • English language proficiency • Ethnicity • Religion • Marital or civil-partnership status • Sexual orientation • Health and disability • Educational and vocational qualifications • UK armed forces veteran • Household circumstances Job characteristics: • Usual hours • Occupation Employer characteristics: • Industry • Workplace location	Personal characteristics: • Age • Sex • Residential location • Country of birth • English language proficiency • Ethnicity • Religion • Marital or civil-partnership status • Sexual orientation • Health and disability • Educational and vocational qualifications • UK armed forces veteran • Household circumstances Job characteristics: • Earnings • Paid hours • Pension contributions • Collective bargaining • Occupation Employer characteristics: • Size (employees) • Industry • Legal status • Workplace location

3. The linkage protocol

The ASHE and CEW21 datasets do not share a common, unique identifier at the level of the individual, since the National Insurance number (NINO) used to index ASHE is not collected as part of the Census. Instead, the ONS are linking ASHE and CEW21 using reference data contained within the ONS Demographic Index (DI). The Demographic

Index is a composite dataset built from a range of administrative sources – including health, education and tax records – with the aim of assigning a unique ID to each individual in England and Wales. The Demographic Index forms part of the ONS Reference Data Management Framework (ONS, 2025).

Prior to the ASHE-CEW21 linkage project, ONS had already used the Demographic Index to link CEW21 to NINOs for the purpose of linking Census data with PAYE data (see ONS, 2024). ONS are re-using this CEW21-NINO linkage table as the first resort in linking ASHE to CEW21. Where an ASHE NINO does not appear in this pre-existing linkage table, ONS have sought to match the demographic information available for ASHE sample members directly to the Demographic Index to make the link to CEW21.

In an earlier linkage project (Forth et al., 2022a), robust linkages to CEW11 data were made for 74% of individuals resident in England and Wales in the 2011 ASHE. The linkage methodology for ASHE-CEW21 is expected to yield a linkage rate that is at least as high as that achieved for ASHE-CEW11. However, the linkage outcomes for ASHE-CEW21 are not yet fully known and will be documented in a later version of this *User Guide*.

If the ASHE records that are successfully linked to CEW21 are found to be observationally distinct to those that are not linked (e.g. more likely to be middle-aged or to reside in rural locations), weights will be derived and made available with the dataset to adjust the profile of the linked records so that it matches the profile of the full set of records, insofar as possible.

One important difference between the ASHE-CEW11 and ASHE-CEW21 linkage protocols is that the protocol for ASHE-CEW11 sought to make a linkage only for those persons who were observed at least once in the achieved ASHE samples for 2010, 2011 and 2012. Consequently, no link was attempted for those individuals who did not appear in ASHE in at least one of those three years but who may have appeared in some other year of ASHE (say 2008 or 2014). The linkage protocol for ASHE-CEW21 is fundamentally different and less restrictive as the CEW21-NINO linkage table could, in principle, include any NINO ever issued in the UK. This suggests that it may be possible to obtain a good linkage rate to CEW21 for individuals in any year of the ASHE dataset, even for those who are unobserved in ASHE 2021 or adjacent years. This may help to avoid the pronounced ‘tent-shaped’ profile documented in Figure 3 of Forth et al. (2022a); this shows the share of ASHE cases linked to CEW11 in each year of ASHE from 2001 to 2018 with a peak at 2011. However, we stress again that the linkage outcomes for ASHE-CEW21 are not yet known and will be documented in a later version of this *User Guide*.

4. Expected features of the linked data

4.1. Structure of the linked dataset:

The ASHE dataset being linked to CEW21 spans the period 1999-2022. The dataset contains one record per job, per year. A person may have more than one job in ASHE in a given year. They will appear in every year they hold employee status, if their employer at the time responds to the survey. Within a given year (YEAR), each job record has a unique serial number (SERNO). Each individual has a unique person identifier (ADR_ID) which forms a persistent person identifier throughout all years of the ASHE dataset. SERNO is not consistent across years.

The CEW21 dataset has one record per individual. Each record has a unique person identifier (RESIDENT_ID). This combines the unique household identifier (HOUSEHOLD_ID) and the person number within each household (HOUSEHOLD_PERSON_NUMBER).

The linked ASHE-CEW21 dataset links Census data for a given individual to each ASHE job record judged to belong to that same individual. The linkage effectively extends the width of the ASHE dataset by adding variables obtained from CEW21. The ASHE-CEW21 data dictionary identifies the range of variables that we currently expect to be provided on the final dataset, with the exception of the geographical identifiers and variables describing the linkage process itself, which will be added to the data dictionary at a later date.

The shape of the linked dataset is illustrated in Table 1. In the example, the ASHE person with ADR_ID 112233 has two job records for 2020 and one job record for 2021. A matching person record has been found in CEW21 and their associated Census variables have been added to all three job records. A similar situation applies to ASHE person 112255, though this person only has one job record in each year. In the case of ASHE person 112244, no matching person record has been found in CEW21 and so the Census variables are empty.

Table 1: Illustration of the structure of the ASHE-CEW21 dataset

ADR_ID_ASHE	SERNO_ASHE	YEAR_ASHE	Other ASHE variables	RESIDENT_ID_CEN	Other CEW21 variables
112233	123450	2020	xxx	778899	yyy
112233	123451	2020	xxx	778899	yyy
112233	123452	2021	xxx	778899	yyy
112244	123453	2020	xxx		
112244	123454	2021	xxx		
112244	123455	2022	xxx		
112255	123456	2019	xxx	667788	yyy
112255	123457	2020	xxx	667788	yyy
112255	123458	2021	xxx	667788	yyy

Note: each ASHE respondent shown here may also be observed in other years of ASHE in the range 1999 to 2022.

In any linkage project, it is possible for linkage errors to occur. These may arise even when both datasets share a unique identifier because there may be errors in the recording of those identifiers on one or both of the datasets, leading records to be linked even though they may pertain to different individuals. Where the datasets do not share a unique identifier, there is greater scope for errors because the characteristics used to compile the linkage index may not be unique in the population. One consequence is that the ASHE-CEW21 linkage may lead to instances in which the Demographic Index matches one ADR_ID to more than one RESIDENT_ID, and vice versa. In Table 1, it could lead to a situation in which ADR_ID 112233 is matched to both RESIDENT_ID 778899 and RESIDENT_ID 778888. One must then determine which match is most likely to be the true match; this may involve interrogation of the quality of the linkage variables or the degree of correspondence between ASHE and Census on variables not included in the linkage protocol. These instances will be documented during the quality assurance process, flagged on the final dataset and documented in a later version of this *User Guide*. The incidence of ‘one:many’ and ‘many:one’ linkages is expected to be low.

4.2. Considerations regarding the ASHE data:

The ASHE data that is being linked to CEW21 differs in four key respects from the core ASHE that is available to users in the SRS:

- **Different person identifier:** ONS has undertaken some cleaning of the NINOs in ASHE, leading it to attach an updated person identifier to the dataset (ADR_ID instead of PIDEN). Any prior ASHE code that users wish to run on ASHE-CEW21 must therefore be edited with this in mind.
- **Different number of records:** Partly as a consequence of this cleaning, but also as a result of variations in how ASHE is processed for different purposes within ONS, the ASHE dataset linked to CEW21 may have a slightly different number of records to the core SRS ASHE.
- **Data for 1999- 2022 only:** The ASHE-CEW21 linked dataset extends only to the year 2022. The core SRS ASHE includes data for later years; these additional years of ASHE data will be added to the ASHE-CEW21 dataset in due course, but the timetable for the addition of these years to the linked dataset is not yet known.
- **Restricted set of geographical identifiers:** ASHE records the residential location of each employee and workplace location of each job down to Census Output Area level. The ONS Census Team will not permit this level of geographic detail on the linked ASHE-CEW21 dataset, due to the risk of disclosure. The degree of detail that will be released is still subject to discussion; however, we expect it will extend to Local Authority District as a minimum. Geographical identifiers will be added to ASHE-CEW21 data dictionary once discussions with the ONS Census Team have concluded.

4.3. Considerations regarding the Census data:

Appendix A contains CEW21 Individual and Household Questionnaires that have been annotated to identify the connection between questionnaire items and specific Census variables in the ASHE-CEW21 dataset.

The CEW21 data that is being linked to ASHE is derived from an internal ONS version of the Census dataset that has not been made publicly available. One consequence is that the range of derived variables may not fully match the range of derived variables provided on other publicly-available CEW21 datasets, such as the Census 2021 secure microdata sample. Users may find that some derived variables that are present on the secure microdata sample are not present on the ASHE-CEW21 linked dataset, and vice versa.

Data from Question 27 on the 2021 Census Individual Questionnaire (concerning the respondent's gender identity) is not being released on any Census dataset, because of data quality concerns, and so will not feature in ASHE-CEW21.

4.4. Other general considerations:

The information from the 2021 Census was collected for a specific time point (21st March 2021). These data may be linked to ASHE records across the range of years that feature in the ASHE dataset (1999-2022), but users should be aware that some of the personal characteristics of the ASHE sample member (e.g. their health status or family status) may deviate from those observed in the Census as one moves away from the Census date. To some extent, this may be mitigated by utilising data from CEW11 (see Section 5 below).

The 2021 Census was conducted at a time when many people were working from home because of the impact of the COVID pandemic. In some cases, this shift has been permanent; in other cases, it was temporary. Users should be aware that the work location reported in the Census (and in ASHE) may reflect these temporal shifts. Users should also be aware that employers may report the work location differently to their employees. ASHE is completed by employers whereas the Census is necessarily completed by the employee themselves.¹

4.5. Household members:

In each household in England and Wales, CEW21 sought to administer two linked questionnaires. The first was a household-level questionnaire, completed by the person who owned the accommodation or was legally responsible for the rent; the second was an individual-level questionnaire completed by each resident in the household. The core linkage between ASHE and CEW21 is to the data collected in the individual

¹ Other methodological work by the ASHE team has drawn attention to potential measurement error in the work location reported in ASHE (see Whittard et al., 2023).

questionnaire. However, some users may be interested to understand the composition of the ASHE sample member's household, the age of their children or the economic activity status of their spouse (for example). To address these needs, users will also be provided with a separate CEW21 household table that will be linkable to the core ASHE-CEW21 data via a unique CEW household identifier (HOUSHOLD_ID). The household table will only include information on households that include an ASHE sample member. It will include the household questionnaire data and the individual questionnaire data for all residents other than the ASHE sample member. This household table may be issued with a small delay after the core ASHE-CEW21 dataset; however, we expect it to be available by Autumn 2026.

5. Connections with the ASHE-CEW11 linked dataset

As previously noted, ASHE has already been linked to the 2011 Census of England and Wales (CEW11). In that case, the linkage protocol sought out CEW11 records for those persons who were observed at least once in the achieved samples for ASHE 2010, ASHE 2011 and ASHE 2012. Links were successfully made for 74% of the person records from ASHE 2011. Further details of the linkage protocol and outcomes are provided by Forth et al. (2022a).

Users will be able to apply for the ASHE-CEW11 dataset alongside the ASHE-CEW21 dataset. Once these two datasets sit within the same SRS project, it will be possible to combine them via the ADR_ID to create a single ASHE dataset with linkages both to CEW11 and CEW21. Users may decide themselves how to structure such a dataset but one possibility is to structure the data in 'wide' format, where variables from CEW11 and CEW21 are added to the ASHE record and delineated via distinct suffixes (e.g. _C11 and _C21). An illustration is provided in Table 2 overleaf.

A data dictionary for the ASHE-CEW11 dataset may be downloaded from the SRS metadata catalogue. Users should be aware that some of the Census questions were altered between CEW2011 and CEW21 (see ONS, 2023). In addition, the derived variables added to the source data by the ONS Census Team are not necessarily consistent across the two datasets. Users should also be aware that the lowest level of geographical identifier released on the ASHE-CEW11 dataset is Local Authority District. The ASHE-CEW21 linkage is likely to be made available with more-granular geographic identifiers (see Section 4.2).

The ASHE-CEW11 dataset contains a wide range of individual-level data items. It also contains a selection of household-level data items in the form of derived variables. ONS and the WED project are currently working to make the full household-level data available (comprising the detail from the household questionnaire and the individual questionnaire data for each of the household members). We expect these data to be available in Autumn 2026.

Table 2: Illustration of ‘wide’ format for an ASHE-CEW11-CEW21 dataset

ADR_ID_ASHE	SERNO_ASHE	YEAR_ASHE	Other ASHE variables	RESIDENT_ID_C21	Other CEW21 variables	RESIDENT_ID_C11	Other CEW11 variables
112233	123113	2009	xxx	778899	yyy	665544	zzz
112233	123216	2010	xxx	778899	yyy	665544	zzz
112233	123225	2011	xxx	778899	yyy	665544	zzz
112233	123326	2015	xxx	778899	yyy	665544	zzz
112233	123335	2016	xxx	778899	yyy	665544	zzz
112233	123347	2019	xxx	778899	yyy	665544	zzz
112233	123450	2020	xxx	778899	yyy	665544	zzz
112233	123451	2020	xxx	778899	yyy	665544	zzz
112233	123452	2021	xxx	778899	yyy	665544	zzz

Note: the ASHE respondent shown here may also be observed in other years of ASHE in the range 1999 to 2022.

Some ASHE sample members may be linked to both CEW11 and CEW21, others may only be linked only to one Census, and a further subset may be linked to neither. For the subset of ASHE sample members who are observed in ASHE in 2011 and 2021 and who have been linked to both CEW11 and CEW21, it will be possible to observe changes in earnings and hours over a 10-year period alongside changes in personal or household characteristics. It is not possible to say yet how large this sample will be. However, for indicative purposes, around 117,000 ASHE 2011 sample members had their records linked to CEW11 (Forth et al., 2022a: Table 1). And one can expect around 45-50% of these ASHE sample members to appear in ASHE 2021 (Forth et al., 2022b). If the ASHE-CEW21 linkage rate is around 80%, this would yield a sample of around 40,000 persons. This is an indicative estimate only; linkage outcomes have yet to be determined.

6. Connections with other WED datasets

The ASHE datasets linked to CEW11 and CEW21 have the same unique person identifier (ADR_ID) as the ASHE datasets that have been linked to HMRC PAYE data and Self-Assessment data (Ritchie et al., 2024) and Migrant Worker Scan data (Ritchie et al., 2025). Accordingly, it is theoretically feasible to construct an ASHE dataset containing data from CEW11, CEW21, PAYE, Self-Assessment and Migrant Worker Scan.

However, the number of ASHE sample members with linked data in each of these datasets is likely to be small. Moreover, it may be difficult to obtain the necessary project approval to hold all these datasets alongside one another in the same project because the ASHE-PAYE, ASHE-SA and ASHE-MWS datasets each contain detailed geographical identifiers that are being withheld from the ASHE-CEW21 dataset (see Section 4.2).

7. Further information

This User Guide is accompanied by:

- **ASHE-CEW21 Data Dictionary (v0.1 beta):** The data dictionary lists the variables that we expect to be present on the final published dataset, with the exception of the geographic identifiers and variables describing the linkage process (still the subject of discussion with the ONS Census and Data Engineering Teams). The data dictionary includes code lists for categorical variables. The data dictionary will be updated once the set of geographic identifiers and linkage-process variables has been agreed.
- **ASHE-CEW21 Synthetic Dataset (v0.1 beta):** The synthetic dataset provides an indication of the structure of the final dataset – similar to Table 1. It contains variables whose values have been generated at random. It does not seek to reproduce any of the moments from the real microdata. The synthetic dataset is expected to be most useful to those without any prior experience of using the ASHE-CEW11 dataset (Forth et al., 2022a), giving them a broad insight into the expected data structure for ASHE-CEW21.

All documentation relating to the ASHE-CEW21 linkage may be obtained from the website of the WED project: <https://www.wagedynamics.com/>

For clarifications and to provide feedback on the documentation please contact: wagedynamics@uwe.ac.uk

Appendix A: Annotated Census Questionnaires

- Census 2021 England – Individual Questionnaire
- Census 2021 England – Household Questionnaire

We need your help to run the census, which gathers vital information to help plan services such as transport, education and healthcare.

Everyone should complete the census on 21 March 2021 or as soon as possible after.

If you prefer, you can complete the questionnaire online:

1. Go to www.census.gov.uk
2. Enter the individual access code on the front of this questionnaire.
3. Answer the questions and select submit.

Thank you for taking part.

Jan Diamo

Professor Sir Ian Diamond
National Statistician

You must take part in the census by law. If you do not, or if you supply false information, you could be fined. Some questions are clearly labelled as being voluntary – it is not an offence if you do not answer these.

Your information is protected by law.

Find out more in the leaflet that comes with this questionnaire.

Complete online

www.census.gov.uk

Your individual access code is:

OR fill in this paper questionnaire.

If your address is incorrect or missing, write in your correct address below:

[illegible][illegible][illegible]

								Postcode							

Declaration

This questionnaire has been completed to the best of my knowledge and belief.

Signature	Date
-----------	------

If you have lost your envelope, please return your completed questionnaire to:

FREEPOST Census 2021

Where you can get help:

Office for
National Statistics

Before you start

Who should complete this questionnaire?

Everyone who has stayed, or intends to stay, in the United Kingdom for 3 months or more needs to be included on a census questionnaire.

This Individual Questionnaire is for:

- those living in a private household who have requested an Individual Questionnaire
- those who usually live in the UK and have stayed, or expect to stay, in a communal establishment (excluding prison) for 6 months or more
- those who usually live in the UK and are currently detained for 12 months or more
- those living or staying temporarily in a communal establishment who do not have another usual UK address

What is a communal establishment?

A communal establishment is a place providing managed residential accommodation. "Managed" here means full-time or part-time supervision of the accommodation.

Examples of communal establishments include student halls of residence, boarding schools, armed forces bases, hospitals, care homes and prisons.

How should I complete my questionnaire correctly?

You should:

- use black or blue ink to answer
- tick your answers within the box, like this: ☒
- print in capital letters within the boxes, one letter per box, like this:

S	M	I	T	H				
---	---	---	---	---	--	--	--	--
- correct any mistakes by filling in the box, like this:

S	M							
---	---	--	--	--	--	--	--	--

 or this:

S	M	I	T	H				
---	---	---	---	---	--	--	--	--
- continue onto the next line (if possible) when a word will not fit, like this:

P	A	D	D	I	N	G	T	O
N		S	T	R	E	E	T	
- follow the ➔ **GO TO** instructions and leave any questions or pages you do not need to answer completely blank; any marks or lines can be mistaken for answers

Remember to sign the Declaration on the front page before you return your completed questionnaire.

How do I return my completed questionnaire?

Put your completed and signed questionnaire into the prepaid envelope provided. If you've lost your prepaid envelope, you can use a plain envelope and write the below address on it.

FREEPOST Census 2021

Then put it in the post.

If you live in a communal establishment, you may prefer to pass your completed and signed questionnaire in your envelope to your establishment manager. They can then return it on your behalf.

All the personal information that you give us will be kept strictly confidential and will only be used for statistical purposes.

Start here

A1 What type of accommodation is this?

- ☐ A communal establishment (for example, student hall of residence, boarding school, armed forces base, hospital, care home, prison)
- ☐ A private or family household ➔ **GO TO** Individual questions on page 4

A2 What is your position in this establishment?

➔ If you are answering on behalf of someone else, please record their position and not your own

- ☐ Resident (for example, student, member of armed forces, patient, detainee)
- ☐ Staff or owner
- ☐ Family member or partner of staff or owner
- ☐ Staying temporarily (no usual UK address)

Individual questions

P Are you answering these questions for yourself or for someone else?

- ☐ For myself
- ☐ For someone else – please ensure their details and not your own are inserted in this questionnaire

PROXY_ANSWER

1 What is your name?

First name

Middle name(s)

Last name

2 What is your date of birth?

RESIDENT_MONTH_OF_BIRTH
RESIDENT_YEAR_OF_BIRTH
RESIDENT_AGE

Day Month Year

3 What is your sex?

➔ A question about gender identity will follow if you are aged 16 or over

- ☐ Female
- ☐ Male

SEX

4 On 21 March 2021, what is your legal marital or registered civil partnership status?

- ☐ Never married and never registered a civil partnership ➔ **GO TO 6**
- ☐ Married
- ☐ In a registered civil partnership
- ☐ Separated, but still legally married
- ☐ Separated, but still legally in a civil partnership
- ☐ Divorced
- ☐ Formerly in a civil partnership which is now legally dissolved
- ☐ Widowed
- ☐ Surviving partner from a registered civil partnership

5 Who is (was) your legal marriage or registered civil partnership to?

- ☐ Someone of the opposite sex
- ☐ Someone of the same sex

Q4 and Q5 combined in:

LEGAL_PARTNERSHIP_STATUS

6 Do you stay at another address for more than 30 days a year?

➔ These days could be in a row or separate

- ☐ No ➔ **GO TO 8**
- ☐ Yes, write in other UK address below

ALTERNATIVE_ADDRESS_INDICATOR

Postcode

- ☐ **OR** yes, outside the UK, write in country

ALTERNATIVE_ADDRESS_COUNTRY

7 What is that address?

ALTERNATIVE_ADDRESS_TYPE

- ☐ Armed forces base address
- ☐ Another address when working away from home
- ☐ Student's home address
- ☐ Student's term-time address
- ☐ Another parent or guardian's address
- ☐ Partner's address
- ☐ Holiday home
- ☐ Other

8 Are you a schoolchild or student in full-time education?

IN_FULL_TIME_EDUCATION

- ☐ Yes ☐ No ➔ **GO TO 10**

9 During term time, where do you usually live?

IS_HH_TERM_TIME_ADDRESS

- ☐ At the address on the front of this questionnaire
- ☐ At the address in question 6 ➔ **GO TO 51**
- ☐ At another address ➔ **GO TO 51**

10 What is your country of birth?

- ☐ England ➔ **GO TO 13**
- ☐ Wales ➔ **GO TO 13**
- ☐ Scotland ➔ **GO TO 13**
- ☐ Northern Ireland ➔ **GO TO 13**
- ☐ Republic of Ireland
- ☐ Elsewhere, write in current name of the country

COUNTRY_OF_BIRTH

Individual questions – continued

11 If you were not born in the United Kingdom, when did you most recently arrive to live here?

Do not count short visits away from the UK

Month

Year

MONTH_OF_ARRIVAL_IN_COUNTRY
YEAR_OF_ARRIVAL_IN_COUNTRY

If you arrived before 21 March 2020 → **GO TO 13**

If you arrived on or after 21 March 2020 → **GO TO 12**

12 Including the time you have already spent here, how long do you intend to stay in the United Kingdom?

☐ Less than 12 months

INTENTION_TO_STAY

☐ 12 months or more

13 One year ago, what was your usual address?

If you had no usual address one year ago, state the address where you were staying

☐ The address on the front of this questionnaire

☐ Student term-time or boarding school address in the UK, write in term-time address below

☐ Another address in the UK, write in below

Postcode

☐ **OR** outside the UK, write in country

14 How would you describe your national identity?

Tick all that apply

☐ British

☐ English

☐ Welsh

☐ Scottish

☐ Northern Irish

☐ Other, write in

NATIONAL_IDENTITY_ALL

PASSPORTS_ALL

☐ **OR** none

21 How is your health in general?

- Very good
- Good
- Fair
- Bad
- Very bad
- ☐
- ☐
- ☐
- ☐
- ☐

HEALTH_IN_GENERAL

22 Do you have any physical or mental health conditions or illnesses lasting or expected to last 12 months or more?

- ☐ Yes
- ☐ No → **GO TO 24**

DISABILITY
(combines Q22 + Q23)

23 Do any of your conditions or illnesses reduce your ability to carry out day-to-day activities?

- ☐ Yes, a lot
- ☐ Yes, a little
- ☐ Not at all

24 Do you look after, or give any help or support to, anyone because they have long-term physical or mental health conditions or illnesses, or problems related to old age?

Exclude anything you do as part of your paid employment

- ☐ No
- ☐ Yes, 9 hours a week or less
- ☐ Yes, 10 to 19 hours a week
- ☐ Yes, 20 to 34 hours a week
- ☐ Yes, 35 to 49 hours a week
- ☐ Yes, 50 or more hours a week

IS_CARER

25 If you are aged 16 or over → **GO TO 26**
If you are aged 15 or under → **GO TO 51**

26 Which of the following best describes your sexual orientation?

This question is **voluntary**

- ☐ Straight/Heterosexual
- ☐ Gay or Lesbian
- ☐ Bisexual
- ☐ Other sexual orientation, write in

SEXUAL_ORIENTATION

27 Is the gender you identify with the same as your sex registered at birth?

This question is **voluntary**

- ☐ Yes
- ☐ No, write in gender identity

* EXCLUDED FROM DATASET *

Individual questions – continued

28 The next set of questions is about your qualifications.

- Record any qualifications you have ever achieved in England, Wales or worldwide, including equivalents, even if you are not using them now

Derived:
QUALIFICATIONS
HIGHEST_QUALIFICATION

29 Have you completed an apprenticeship?

- For example, trade, advanced, foundation, modern

☐ Yes

☐ No

QUALIFICATIONS_01

30 Have you achieved a qualification at degree level or above?

- For example, degree, foundation degree, HND or HNC, NVQ level 4 and above, teaching or nursing

☐ Yes

☐ No

QUALIFICATIONS_02

31 Have you achieved any other qualifications?

- Tick all that apply

GCSEs or equivalent

- ☐ 5 or more GCSEs (A*–C, 9–4), O levels (passes) or CSEs (grade 1)

QUALIFICATIONS_03

- ☐ Any other GCSEs, O levels or CSEs (any grades) or Basic Skills course

QUALIFICATIONS_04

AS, A level or equivalent

- ☐ 2 or more A levels, 4 or more AS levels

QUALIFICATIONS_05

- ☐ 1 A level, 2–3 AS levels

QUALIFICATIONS_06

- ☐ 1 AS level

QUALIFICATIONS_07

NVQ or equivalent

- ☐ NVQ level 3, BTEC National, OND or ONC, City and Guilds Advanced Craft

QUALIFICATIONS_08

- ☐ NVQ level 2, BTEC General, City and Guilds Craft

QUALIFICATIONS_09

- ☐ NVQ level 1

QUALIFICATIONS_10

OR other or no qualifications

- ☐ Any other qualifications, equivalent unknown

QUALIFICATIONS_11

- ☐ No qualifications

QUALIFICATIONS_12

- ☐ Yes, but not in the last 12 months

- ☐ No, have never worked ➔ **GO TO 51**

HAS_EVER_WORKED

39 Answer the remaining questions for your main job or, if not working, your last main job.

- Your main job is the job in which you usually work (worked) the most hours

Individual questions – continued

40 In your main job, what is (was) your employment status?

- ☐ Employee **EMPLOYMENT_STATUS**
- ☐ Self-employed or freelance without employees
- ☐ Self-employed with employees

41 What is (was) the name of the organisation or business you work (worked) for?

➔ If you are (were) self-employed in your own business, write in your business name

- ☐ **OR** no organisation or work (worked) for a private individual

42 What is (was) your full job title?

➔ For example, RETAIL ASSISTANT, OFFICE CLERK, DISTRICT NURSE, PRIMARY SCHOOL TEACHER

➔ Do not state your grade or pay band

SOC
(occupation
classification)

43 Briefly describe what you do (did) in your main job.

44 What is (was) the main activity of your organisation, business or freelance work?

➔ For example, CLOTHING RETAIL, GENERAL HOSPITAL, PRIMARY EDUCATION, FOOD WHOLESALE

➔ If you are (were) a civil servant, write CIVIL SERVICE

➔ If you are (were) a local government officer, write LOCAL GOVERNMENT and give the name of your department within the local authority

SIC
(industry
classification)

45 Do (did) you supervise or oversee the work of other employees on a day-to-day basis?

- ☐ Yes ☐ No **SUPERVISES_OR_MANAGES**

46 If you had a job last week ➔ **GO TO 47**

If you were temporarily away from work last week ➔ **GO TO 47**

If you did not have a job last week ➔ **GO TO 51**

47 In your main job, how many hours a week do you usually work? **HOURS_PER_WEEK_WORKED**

➔ Include paid and unpaid overtime

0 to 15 16 to 30 31 to 48 49 or more

☐ ☐ ☐ ☐

48 How do you usually travel to work?

➔ Tick one box only for the longest part, **by distance**, of your usual journey to work

- ☐ Work mainly at or from home
- ☐ Underground, metro, light rail, tram
- ☐ Train **TRANSPORT_TO_WORK**
TRANSPORT_TO_WORKPLACE
- ☐ Bus, minibus or coach
- ☐ Taxi
- ☐ Motorcycle, scooter or moped
- ☐ Driving a car or van
- ☐ Passenger in a car or van
- ☐ Bicycle
- ☐ On foot
- ☐ Other

49 Where do you mainly work?

WORKPLACE_TYPE

- ☐ At a workplace or report to a depot
- ☐ At or from home ➔ **GO TO 51**
- ☐ An offshore installation ➔ **GO TO 51**
- ☐ No fixed place ➔ **GO TO 51**

50 What is the address of your workplace or depot?

Postcode

WORKPLACE_ADDRESS_COUNTRY

51 There are no more questions.

➔ **GO TO** page 2 for instructions explaining how to return your questionnaire, then

➔ **GO TO** the **Declaration** on the front page

We need your help to run the census, which gathers vital information to help plan services such as transport, education and healthcare.

All households should complete the census on 21 March 2021 or as soon as possible after.

If you prefer, you can complete the questionnaire online:

1. Go to www.census.gov.uk
2. Enter the household access code on the front of this questionnaire.
3. Answer the questions and select submit.

Thank you for taking part.

Jan Biamos

Professor Sir Ian Diamond
National Statistician

You must take part in the census by law. If you do not, or if you supply false information, you could be fined. Some questions are clearly labelled as being voluntary – it is not an offence if you do not answer these.

Your information is protected **by law.**

Find out more in the leaflet that comes with this questionnaire.

Complete online

www.census.gov.uk

Your household access code is:

OR fill in this paper questionnaire.

If your address is incorrect or missing, write in your correct address below:

Office for
National Statistics

H1

Before you start

The householder is responsible for ensuring that this questionnaire is completed and returned.

The **householder** is the person who lives, or is present, at this address who:

- owns/rents (or jointly owns/rents) the accommodation; and/or
- is responsible (or jointly responsible) for paying the household bills and expenses

A **household** is:

- one person living alone; or
- a group of people (not necessarily related) living at the same address who share cooking facilities and share a living room or sitting room or dining area

What should I complete on this questionnaire?

- **Household questions on pages 3–6** about this household and its accommodation.

- **Individual questions on pages 7–31** for every person who usually lives in this household.

Every person who has been, or intends to be, in the UK for 3 months or more should be included in these questions at their usual UK address.

- **Visitor questions on the back page (page 32)** for all other people staying overnight in this household on 21 March 2021.

It is important to include visitors staying overnight in this household to make sure no one is missed. Visitors who usually live elsewhere in the UK must also be included on a census questionnaire at their usual address.

You will find further information about who to include in this questionnaire in the accompanying leaflet.

Will I need extra questionnaires?

- If there are more than 5 people in this household, or more than 3 visitors staying overnight, you can choose either to complete the entire questionnaire online, or fill in this questionnaire and contact us to request one or more Continuation Questionnaires.
- If any member of this household does not want to disclose their information to others in the household, you can request an Individual Questionnaire. Remember to include these people in household questions (H1 to H14) on this questionnaire, but leave blank their individual questions (1 to 51).
- If there is more than one household at this address, contact us to request one or more additional Household Questionnaires.

You can request extra questionnaires online at www.census.gov.uk or by calling 0800 141 2021.

How should I complete my questionnaire correctly?

You should:

- use black or blue ink to answer
- tick your answers within the box, like this: ☒
- print in capital letters within the boxes, one letter per box, like this:

S	M	I	T	H			
---	---	---	---	---	--	--	--
- correct any mistakes by filling in the box, like this:

S	M		I	T	H		
---	---	--	---	---	---	--	--

 or this:

S	M	I	T	H			
---	---	---	---	---	--	--	--
- continue onto the next line (if possible) when a word will not fit, like this:

P	A	D	D	I	N	G	T	O
N		S	T	R	E	E	T	
- follow the ➔ **GO TO** instructions and leave any questions or pages you do not need to answer completely blank; any marks or lines can be mistaken for answers

Household questions

H1 Who usually lives here?

➡ Tick all that apply. For more advice about who to include, see the accompanying leaflet

- ☐ Me, this is my permanent or family home
- ☐ Family members including partners, children, and babies born on or before 21
- ☐ Students and/or schoolchildren who live away from home during term time
- ☐ Housemates, tenants or lodgers
- ☐ People who usually live outside the UK who are staying in the UK for 3 months or more
- ☐ People who work away from home within the UK, or are members of the armed forces, if this is their permanent or family home
- ☐ People who are temporarily outside the UK for less than 12 months
- ☐ People staying temporarily who usually live in the UK but do not have another UK address, for example, relatives, friends
- ☐ Other people who usually live here, including anyone temporarily away from home
- ☐ **OR** no one usually lives here, for example, this is a second address or holiday home ➡ **GO TO H4**

WHO_USUALLY_LIVES_HERE
(limited detail)

H2 Counting everyone you included in question H1, how many people usually live here?

NUMBER_OF_RESIDENTS

H3 Starting with yourself, list the names of all the people counted in question H2 including children, babies and lodgers.

➡ If a member of this household has requested an Individual Questionnaire, tick the box beside their name and leave blank the Individual questions 1 to 51 for that person

Individual
Questionnaire
requested?

	First name	Last name	
Yourself (Person 1)			☐
Person 2			☐
Person 3			☐
Person 4			☐
Person 5			☐

If there are more than 5 people, complete the entire questionnaire online or contact us to get a Continuation Questionnaire.

H4 Apart from everyone counted in question H2, who else is staying overnight here on 21 March 2021? These people are counted as visitors. Remember to include children and babies.

➡ Tick all that apply

WHO_IS_STAYING

- ☐ People who usually live somewhere else in the UK, for example, boy/girlfriends, friends, relatives
- ☐ People staying here because it is their second address, for example, for work. Their permanent or family home is elsewhere
- ☐ People who usually live outside the UK who are staying in the UK for less than 3 months
- ☐ People here on holiday
- ☐ **OR** there are no visitors staying overnight here on 21 March 2021 ➡ **GO TO H6**

H5 Counting only the people included in question H4, how many visitors are staying overnight here on 21 March 2021?

NUMBER_OF_VISITORS

➡ Remember to answer the Visitor questions on the back page (page 32) for these people

➡ If there is no one usually living here (there are only visitors staying here) ➡ **GO TO H7**

Household questions – continued

H6 How are members of this household related to each other? If members are not related, tick the "Unrelated" box.

- ➡ Using the same order you used in question H3 (page 3), write the name of everyone who usually lives here at the top of each column. Remember to include children, babies and people who have requested an Individual Questionnaire
- ➡ Tick a box to show the relationship of each person to each of the other members of this household
- ➡ If no one usually lives here and there are no visitors staying overnight here on 21 March 2021 ➡ **GO TO H7**

Example:

This shows how a household with 2 parents and 3 children are related to each other

DO NOT write in this section ➡
